You can use your own domain name for your free submission Use your own keywords Submit to a list of over 100 websites You can submit to multiple Submissions simultaneously Built in PingBot so you can quickly monitor the Webmasters status of your Submission Advanced FFA Submitter Review: "Advanced FFA Submitter Review: This is a great tool if you want to post your site free on multiple listing sites. It is very simple to use, just sign up and start posting your site free for all. You can use your own keywords, domain name or you can choose to use the Autosubmitter. It is very simple to use and very fast. You just need to enter your information and you are ready to go! There is an option to upload an image with your listing. If you have multiple websites on a single domain then you can choose to upload all of them at once. It will give you one opportunity to use a different site each time and then you can login to the next site and do it all over again. The AutoSubmit does a great job at pinging every listing site, so you can quickly monitor the results. When you have finished, you can choose to keep track of the status of your submission in your account or just wait till you get all results or simply click a button and that will process them all. There is a section on the right hand side where you can enter your post code and it will list the websites for that area. If you use this tool correctly, you can put your site free for all to make a lot of extra revenue for yourself. I have used this tool to make over \$1,300 in one month, and have more than 40 listings in my account. It is a very simple tool and you can do it yourself without a lot of hassle." -for In this review, the author has tested and reviewed FFA Submitter software for free.
