I am looking for the best way to bet on a horse racing race over the internet in a bookmaker. Are there any special rules or best options to use for this bet on the internet? Can I use the selection based on the horses 1st, 2nd and 3rd place for my odds? The current paid on this would be 20/10 on first place and 12/5 for 2nd place and 6/4 for 3rd place. For example, 5/1 on first place, 20/1 on 2nd place and 40/1 on 3rd place. Once I've filled in my selections I can then choose the 'All to Win' which means the prize will be returned to my selected profit or if I choose 'Money Back' then my selected profit will be returned. The selections are then made available to me and I can then see the possible selections and the winnings depending on the selections made. This is great. But what happens if I want to back a horse but the odds are not available at the time

Unscramble selected words for clues. Keyboard macros allow you to enter one or more selections into the website quickly using only keyboard clicks. For example: The only possible response to the message, "Are you still there" would be "yes". You can use the KeyMacro to enter 'yes' into the 'fill in this field' box or tick the box that appears. You can also use it to enter any single selection, or a series of selections into the website. What is Passport Advantage? The Passport Advantage system is used to help you make winning selections when you play your favourite UK and European sports. It provides a quicker, easier way to use your selected parameters to make your selections when you play. It's a simple way to maximise your chances of winning! How does it work? When you click 'Win' on a selection, a new row is added to your current selection with your selected parameters. The next selection you make will be displayed under the rows that contain your current selections. How do you use it? First select your selections. Under the choice to Win! selection, enter your first choice odds. The bet calculated for this will be to win your requested profit. Fill the next choices in order of preference. Tick the boxes if you require that selection to return your requested profit or leave blank to return your stake money. Tick the E/W boxes to make that selection an each way bet. Next fill in the amount you have to spend. Finally select the percentage profit required. The best coverage available will be shown based on your selections! You can change your percentage or tickbox selections to give better coverage. How much is the Passport Advantage service? The service is totally free. The amount of interest that is generated will vary on the amount of money you play. If you are playing £25 or less, the service will generate a profit. If you are playing £100 or more, the profit will be higher than the estimated 'normal' profit, but the profit will still be generated. This is because we are providing you with the best coverage available, using our professional selections. What is the size of your bets? You can place as much or as little as you like in your bets. You can bet single selections or use the Passport Advantage to place as many as 5 selections. How do you 77a5ca646e

Overlay Overlay Line Crossing Overlay Points Overlay 2 Box Overlay Overlay Points 2 Box Overlay Overlay Win and Lose Overlay 4 Box Overlay Underlay 2 Box Overlay Underlay Points Underlay 4 Box Overlay Underlay Win and Lose Underlay 6 Box Overlay The bet calculations are based on the selections you have made. If you don't wish to see this, please tick the box at the top. If you prefer, you can use the following format to make your selections - X - choose win X - choose lose X - choose each way X - choose each way win X - choose each way lose If you want to see your profit but you only have to spend a fraction of your total bet amount, simply select the probability you have to spend to see the profit. For example if you have a 50p stake you can put a 1p bet to see your profit. Any other selection you wish to make will be added to the calculation. For example if you select 12 3 X 4, this would mean selecting each of those bets to win or lose, and any winning selections to be placed together. You can choose to not include profits in your calculations, and still use the profit based features. You can also use this betting tool with multiple selections. For example if you wish to lay all of your selections, the following would be entered into the calculations: The profit from the full bet would be used to show your final profit. However you can see the selected options above, to see your profit or loss. The two box overlay selections are slightly different, where for each of these options you would select "X choose win and choose lose". If you wish to change the preferences, simply click on the preferences link in the top menu bar. Once you are happy, click on the 'Profit' link in the top menu bar. Why can't I see my profit when I do a multiple bet? As is explained in the preceding chapter, using the profit function of the betspreader requires you to set a proportion of profit. Once you have made any selections (if applicable) you will then be able to see the profit. If you then wish to remove the profit function and have your results calculated without this function then please select the 'No Profit' option from the top menu bar. What happens if I enter an option that does not exist

Description: The links in this series of articles on betting at tennis matches. The first two articles were on the various places in the scoring and basic rules of a tennis match and the next two articles will focus on how to bet, given the odds are in your favour. Here we look at how to bet on the outcome of a match. Bets can be placed on the outcome of a match, one of the players to win or the result of the match to be won by either player. The odds on the result of a match are available in the Handicap or Cup format as set out in Article 3 of the article: Bets on results - the result One of the players to win by 7 points or more - the player One of the players to win by 5 points or more - the player One of the players to win by 3 points or more - the player Select one of the above and decide how you want to bet your money. The table below summarises the odds for each bet and the possible payouts: The odds are given in the traditional percentage pay out format, with the 100% line being that required to guarantee a profit for a staker. The next two articles will provide further information on how to bet on tennis, such as how to read the odds in the Handicap or Cup format, how to use other odds formats and how to bet on matches that are not a singles match. Here are some of the most common uses for tennis betting. Sports betting – the most popular form of sports betting is to use the Odds format in which you are betting that a sports team will win or lose. How to bet on tennis – the winner of a match will win the equivalent of the odds set by bookmakers. Sports betting – this is where you are laying the bet on a team. For example, the winner will win the same odds as the bookies, or the loser will lose the same odds. At this time, there are a large number of online gambling sites with odds
