Matrix Writer With Key

The best way to share and publish your new posts is with a blog, and, for that, you need an editor that gives you the power to do a lot. Matrix Writer is a powerful blog editor designed to help you do just that. It's a blog editor for multiple platforms, including WordPress and Google Blogger. It offers multi-threading so you can use the app's desktop version to make changes to your blogs on your computer while your mobile device changes them for you on the go. As a writing app, Matrix Writer has support for bold, italic, and strikethrough text. You can also add images, and you can even insert video. In addition, you can add sticky headers and other formatting to all your blog posts. And, of course, you can easily add and remove photos and add tags.

So, if you want to create a blog for yourself or as a way to publish information about the projects you work on, then Matrix Writer is a handy tool to have. What is new in this release: Version 1.6.1: Corrected a bug that prevented the Quick Start template from being usable. App was not downloading all the required files in the first run of the app. Version 1.6: New setting for Themes: option for the Floating sidebar (left panel). In addition, we added a setting for Worded Breakpoints. Fixed a bug that prevented initializing of a "Blogs" section. Now it is possible to publish a blog on Google Blogger. New "Add a blog to" – Google Blogger. Fully localized. Keyboard Shortcuts: The keyboard shortcut to open the "Quick Start" is now Ctrl+Shift+O (it was Ctrl+O). Redesigned keyboard shortcuts for Save/Publish. The keyboard shortcut for Save/Publish is now Ctrl+S (was Ctrl+U). The keyboard shortcut for Publish an article is now Ctrl+Alt+U (was Ctrl+Alt+S). Now it is possible to disable the keyboard shortcuts for Save/Publish (in the "Settings" section) The keyboard shortcut to close the "Settings" is now Ctrl+Shift+E (was Ctrl+E). The keyboard shortcut for the "Settings" menu is now Ctrl+D (was Ctrl+F). New keyboard shortcuts for Google Blog

Matrix Writer Free License Key

Matrix Writer is a cross-platform blog editor that allows you to view, edit, update, and thoroughly manage your blog posts, publish them to multiple blogging platforms concurrently, as well as share them to associated social media accounts. First and foremost, you should know that it comes with support for some of the most popular blog services to date, namely WordPress and Google Blogger. Since it's an Electron-based app, it's also worth pointing out it can be run just as smoothly on all major OSes like Windows, macOS, and Linux. Installation is a breeze and so is the straightforward configuration process, since it only requires you to connect to your WordPress and Google Blogger accounts. Once this is dealt with, you will be able to access most of the platform's functionality from the lower right side of the main window. It should not take too long to figure out most of what this app has to offer, mainly thanks to its interactive and modern-looking user interface. Intuitive and efficient rich text editor for your blogs Start writing a new post from the Quick Start or My Blogs sections, and you are bound to discover that things are just as intuitive when it comes to its built-in rich text editor. You are provided with a basic set of text editing features, for example, you can change the text style, edit the paragraph, change the alignment, insert bullets, pictures, videos, maps, as well as tables, amongst others. Furthermore, from the side panel, you can thoroughly categorize your blog posts by adding tags or publishing dates. Dual-platform blog editor for both your computer and your Mac Taking everything into account, Matrix Writer is a relatively decent blog editor that looks and works good and is intuitive enough for almost all categories of users out there. The only real downside is, of course, the fact that it only comes with support for WordPress and Google Blogger. Matrix Writer Customer Reviews Your rating: Write a review Matrix Writer is a cross-platform blog editor that allows you to view, edit, update, and thoroughly manage your blog posts, publish them to multiple blogging platforms concurrently, as well as share them to associated social media accounts. First and foremost, you should know that it comes with support for some of the most popular blog services to date, namely WordPress and Google Blogger.
